

October 19, 2022

To whom it may concern,

We believe a well-designed skatepark is a great way to bring community members together. At a skatepark, natural mentorship opportunities unfold. It's a place where younger people can look up to the older skaters, mixing a group of people that otherwise, would not be together. If a skatepark has an inviting, friendly atmosphere, it can positively impact youth and adults in our community alike. A skatepark with this vibe is something that our community desperately needs.

This project is a student driven project that has been a vehicle of project based learning and a byproduct of passion over the last 3 years. Engaging youth in this project is a way to positively impact each and every student involved. These students will know that change is possible, youth voices are heard, and the community is willing to respond to mental and physical challenges faced in 2022, following the pandemic, with an actionable item that will be used for years to come.

This project has evolved into a vision to build a 9,000-to-11,000 square feet cast-in-place and/or shotcrete concrete skatepark facility.

The Town of Gypsum has generously provided funding for the design of the project in 2022. The Town will also contribute financially to the construction of this project in 2023. Students involved in SK8 Gypsum are looking to do our part to provide funds for the project's construction phase by way of grants and private and corporate sponsorships.

Your company has been selected by Sk8 Gypsum students as an organization to discuss sponsorship to help us reach our goal. This is a permanent concrete park, and the sponsorship levels are also permanent. Our sponsors' names will be displayed for the lifetime of the park. We would love to add your name to our list of committed sponsors:

- Pop Shove It -
- Kick Flip -
- 360 -
- Tre Flip -
- Laser Flip -

Will you get on board and contribute to an improved community? Thank you for your consideration.

Sponsorship Levels

Pop Shove It

A pop shove it is a trick where the skateboard does a pop and a full rotation under the skater's feet.

\$2,000

You will give flair to the Gypsum Skatepark and earn recognition by having the donor's **name on the permanent sponsor wall**, as well as various print materials, our website and social media.

Kickflip

A kickflip is achieved when the tail of the board is popped bridging the entire board into an air, the kickflip rotates the board on a horizontal axis while it's in the air.

\$5,000

You will help the future of the Gypsum skatepark kick off into reality and earn recognition with a **larger donor name** beside other KickFlip Level sponsors on the permanent sponsor wall, as well as various print media materials and our website.

360

This is achieved when you pop off the groups and do a full rotation with your board.

\$10,000

You turn this project into the future! You will earn recognition with the donor **name and logo** on the permanent sponsor wall, as well as various print materials, our website and social media.

Tre Flip

This trick is achieved when you do a kickflip and the board rotates 360 degrees.

\$20,000

You flip this project into the future! You will earn recognition with a donor **logo on a permanent feature**, as well as various print materials, our website and social media.

Laser Flip

Where you make your board a 360 and a heelflip at the same time.

**Exceeding
\$25,000**

You will rotate the Gypsum Skatepark from a dream into reality and earn recognition by having the top 5 sponsors over \$25,000 **name a feature with the donor's logo on a plaque that will be permanently placed on the concrete**. Your logo will also be included in various print materials, plus the Sk8 Gypsum Skatepark website and social media pages.

Sponsorship Form

Company Name: _____

Contact Person: _____

Address: _____

City: _____

Email: _____

Donation Amount: _____

\$500 \$1,000 \$2,000 \$5,000 \$10,000 \$20,000 _____
